LEONARD D.WALLACE
OIL FREE LLC

To:

BARACK OBAMA, PRESIDENT
ASHTON CARTER, SECRETARY of DEFENSE
WALLACE HOD SYSTEM
OIL FREE LLC – J.P. MORGAN
LEONARD D. WALLACE - DAVID IGE
LEONARD D. WALLACE – BILL GALLAGHER

The Statistical Guide {3 Pages below} when reviewed could be considered the beginning of a much needed new Industrial Revolution. This can be substantiated when reading Ted Koppel's new book "LIGHTS OUT".

American Exceptionalism could be described in a second book to be written titled "LIGHTS ON", which will describe the NEW Wallace HOD System that will cause electricity to be available at fifty (50%) percent of global rates.

December 21, 2015

This three page Statistical Guide is an accurate list of the corporate documents now available on the internet for Oil Free LLC

The FIRST Oil Free LLC DOCUMENT issue is a 24 Page letter dated February 17, 2015 addressed to Josh Alcorn. This and other documents can be viewed by going to the Oil Free LLC's website www.oilfreellc.com The website is very comprehensive, provides easily used menu selection for access to all significant documents. The Video of the operational hydrolyzer is password protected; that password is bingobingobingo. The Video shows in detail the production of hydrogen by the Wallace HOD System.

The SECOND Oil Free LLC Document Issue is the April 27, 2015 letter to Victoria Rixon at J.P. Morgan Private Banking. The 24 Page document mentioned above is an enclosure to that letter.

The THIRD Oil Free LLC DOCUMENT is a 4 Page letter sent to the Secretary of the Navy, Ray Mabus, the third page of that document, the last paragraph, identifies the details of a requested grant from the Navy to fund the continuation and further development of the New Wallace HOD System. Total amount required is \$432,000,000. The FOURTH Oil Free LLC experience is the First GOOGLE awareness documented as beginning on Thursday June 11, 2015 with a day-ending total of 47,000 searches.

December 21, 2015

GOOGLE searches have had continuous increases based on global demand. Currently the searches exceed an average of two billion searches per week.

Effective the day of this letter no one at Oil Free LLC is aware of who instigated or created the software that is attributed to the Google sites. We do not believe that the Navy or the U.S. Government had time to create the searches beginning on June 11, 2015 because the June 8, 2015 letter had not yet reached the Secretary of the Navy. "Best Guess" is that it was J.P. Morgan Private Banking. A conclusion is detailed in the paragraph below titled Non Taxpayers Dollars.

NON TAXPAYER DOLLARS The explanation as described in the section titled TALKING POINTS (pages 4-6) in the February 17, 2015, 24 PAGE Delaware Document which was prepared for Josh Alcorn, Beau Biden's political Assistant, and was submitted to Beau's father, Vice President Joe Biden and Delaware Governor Jack Markel. At this time no one has ever said that the conclusions derived in the presentation are inconsistent with the truth.

The STATE of DELAWARE

A. The Caterpillar G20CM34 10 MW genset a natural gas fired reciprocating generator as used by mid-Kansas Electric at the Rubart Station facility near Ulysses, Kansas. described in the Letter to Dean Powell dated January 16, 2015 and included (pages 14-16) in the 24 Page Delaware Document dated February 17, 2015 addressed to Josh Alcorn and referenced above costs \$10 million dollars installed (turnkey operation).

B. Electricity usage in Delaware today would require 400 of these units a Total of \$4 Billion dollars.

C. Onetime royalty payment to Oil Free LLC for each New Wallace HOD System is \$2,000,000 USD. Total payable to Oil Free LLC is \$800 Million dollars.

$$400 \text{ gensets} \times \$2,000,000 = \$800,000,000$$

D. MUNICIPAL REVENUE BONDS which would be 6% interest bearing (tax free) for either a 25 year or a 30 year payout. This results in a brand new grid for the State of

December 21, 2015

Delaware and would be duplicated for the entire USA. J.P. Morgan Private Banking is capable of writing the bond issues for the individual (50) states. The size of each bond issue would be tied to a census report for each respective state. The royalty payment to Oil Free LLC would need to be the first division of funds once the bond sale was complete.

NO TAXPAYER DOLLARS WILL BE USED

* It should be noted that the General Electric Company has equipment equivalent to the Caterpillar equipment described.

E. METHANE GAS (U.S. Natural Gas) It should be noted that the Caterpillar & GE gensets are currently using Methane Gas instead of diesel fuel for the fuel to produce electricity; the hydrogen produced by the New Wallace HOD System has similar chemical properties to that methane gas and the equipment can be adjusted by computer to accept the hydrogen produced by the NEW Wallace HOD System.

F. RESULT - CONCLUSION When the New Wallace HOD System would be used to produce electricity eliminating fossil fuels and coal the cost of that electricity would be less than 50% of current market value and there would be virtually zero (toxic) greenhouse gases.
