Michael F Johnston
Chairman of the Board, Dover Corporation
3005 Highland Parkway
Downers Grove, IL 60515 USA

COPIES SENT BY E-MAIL TO NINE INDIVIDUALS LISTED BELOW

Michael F. Johnston, Chairman of the Board...it is my personal opinion that you should alert your Errors and Omissions Insurance carrier that you have not acted properly to protect your investors but reinforced the criminal behavior of one or more of your employees who believe that extortion and the practice of anti-Semitism is a just way to run your corporation; you have abandoned the professionalism practice by others in the Wall Street arena.

Ms. Kristiane C. Graham and Ms. Mary A. Winston

Ladies, I have been in the business world about sixty years at all times and all situations I have found that women are better than males in making the right decisions to protect those needing protection...a good example of that is to look at General Electric Company's \$8 dollar stock price caused totally by Jack Welch's actions.

Mr. H. John Gilbertson, Jr., Mr. Eric A. Spiegel, Mr. Richard J. Tobin,
Mr. Steven M. Todd, Mr. Steven K. Wagner, Mr. Keith E. Wandell

Gentlemen, if the six of you are ready, willing and choose to do what is correct Dover's investors will owe you everything and everything could easily be measured by what Dover's stock price would be when criminal issues are adjudicated...there will be criminal charges filed and I intend to publically notice the ADL of what appears to be the companies standard way of doing business which is criminal.

THE NINE INDIVIDUALS MENTIONED ABOVE ALL HAVE RECEIVED E-MAILS TO THE FOLLOWING E-MAIL ADDRESS mml@dovercorp.com

Ladies and Gentlemen, recklessness adjoined by criminal behavior towards me personally and aligned with the illegal and known methods of anti-Semitism have been spread worldwide with your intent to steal or destroy the nine page "Rights Agreement" dated January 2, 2013, included in the Letter sent to President Donald J. Trump dated February 17, 2020.(attached).

I do not want to correct or dwell on anything that I have stated previously, if I have insulted anybody or any of you I am not going apologize to anyone. As a Jew, Dover Corporation has allowed their employees to unilaterally increase their application of anti-Semitism towards me to become "Hate Speech".

Ladies and Gentlemen by this time you may have read my letter to President Trump and you will know I served my country for seven years (U. S. Navy) and was assigned to destroyer duty two years; I learned one thing from an experienced Navy hero, John Paul Jones when having lost his first battle he stated to the opposition "I have not yet begun to fight" – "I have not yet begun to fight"...keep in mind there are a lot of Jews in financial positions around the world and when I go the ADL I will get the help I need. I do not intend to go to the Anti-Defamation League to ask for help until such time each one of you refuse to correct the actions of your company.

Oil free expects Dover and ABB to immediately begin to cure the criminality of employee(s) that are not members of the board. Oil Free LLC needs to receive nine independent responses and nine Corporate Resolutions from the nine board participants confirming the following:

First, a valid reason why criminal warrants should not be issued for "Hate Speech"(a crime) and extortion of funds.

Second, promise in writing that you will attend a conference with my attorney and banker as how and when you will repay Oil Free LLC for three years of losses.

Third, state the suggestive language you would like Oil Free LLC adopt while Dover and Oil Free LLC mediate their differences.

Fourth, if mediation as mentioned in the third paragraph is acceptable Oil Free LLC stands ready to allow Dover to continue with the corporate promise to work towards a mutual and agreeable manufacturing status to become Oil Free LLC's leading producer worldwide.

Ladies and Gentlemen it is time for the nine of you to do what you stock holders have been paying you to do...I am seriously interested in protecting the investors completely, the real question is will Dover's Board of Directors be willing to work with me and do this, please believe me I do not want to be known as the person that triggered the collapse of the company's stock price, should you choose not to protect your company the responsibility will be yours, it is time to activate errors and omissions.

I am available for telephone dialogue Monday through Friday 8:00 am to 5:00 pm EST or by appointment excluding the stated hours.
