MESSAGE NUMBER ONE TO PRESIDENT DONALD J. TRUMP
AND ALL CANDIDATES FOR THE OFFICE OF PRESIDENT OF
THE UNITED STATES OF AMERICA IN THE YEAR 2020.

OBJECTIVES

ENERGY INDEPENDENCE TO TAKE PLACE ELIMINATING ALL FOSSIL
FUEL CONFIRMING A NEW INDUSTRIAL REVOLUTION IS ABOUT TO
START; ONCE THE UN-DENIABLE FACTS ALREADY ESTABLISHED
ARE REVIEWED BY MILLIONS OF PEOPLE WHO CHOOSE TO
CONTACT THE FIVE HUNDRED THIRTY FIVE MEMBERS OF THE
UNITED STATES CONGRESS TO DISCUSS AS BEING A CONCERNED
CONSTITUANT...FOLLOWING IS MICHAEL BLOOMBERG'S,
BLOOMBERG NEWS ONE PAGE MEDIA RELEASE DATED
DECEMBER 20, 2016. (Page 2)

CHEAP HYDROGEN

THE WALLACE HYDROGEN ON DEMAND [HOD] SYSTEM, A HYDROLYZER,
IMPORTS EITHER FRESH WATER FROM VARIOUS MUNICIPAL WATER SYSTEMS
OR CLEAN SEAWATER FROM THE WORLD'S OCEANS THROUGH THE IMPORT
GATE VALVE WHEN OPENED, THE HYDROLYZER PRODUCES HYDROGEN AND
EXPORTS THE HYDROGEN THROUGH THE EXPORT GATE VALVE ON THE
OPPOSITE SIDE OF THE HYDROLYZER DIRECTLY INTO THE INTERNAL
COMBUSTION ENGINE TO BE USED AS FUEL, PERMANENTLY REPLACING ALL
FOSSIL FUEL. THE ELECTROLYSIS PROCESS IS SIMPLE BUT UNIQUE...THIS BY
DEFINITION IS CHEAP HYDROGEN.

THE WALLACE HOD SYSTEM WILL CONFIRM THE REAL POSSIBILITY THAT OIL
WILL PLUMMET TO TEN DOLLARS (\$10) A BARREL.

Big Utility Sees Pathway to \$10 Oil

By Francois De Beaupuy [@FrancoisDeBeaup](#) *More stories by Francois De Beaupuy*

December 20, 2016 6:35 AM

- Lower cost for solar, hydrogen and batteries to weigh on crude
- Innovation chief Lepercq sees 'quasi-infinite and free energy'

The oil industry must brace for five energy “tsunamis” that threaten to drag prices as low as \$10 a barrel in less than a decade, according to [Engie SA's](#) innovation chief.

The falling cost of solar power and battery storage, rising sales of electric vehicles, increasingly “smart” buildings and cheap hydrogen will all weigh on crude, Thierry Lepercq, head of research, technology and innovation at the French energy company, said in an interview. “Even if oil demand continues to climb until 2025, its price could drop to \$10 if markets anticipate a significant fall in demand,” Lepercq said at his office near Paris. Crude last slumped to that level in 1998.

“Solar, battery storage, electrical and hydrogen vehicles, and connected devices are in a ‘J’ curve, he said. “Hydrogen is the missing link in a 100 percent renewable-energy system, but technological bricks already exist.”

The former French gas monopoly, which is now the world’s largest non-state power producer following a decade of acquisitions, is investing in renewables while selling coal-fired plants and exploration assets to shield itself from commodity-price swings. It plans to spend 1.5 billion euros (\$1.57 billion) by 2018 on technologies including grid-scale battery storage, hydrogen output, “mini-grids” that serve small clusters of homes, and smart buildings that link up heating, lighting and IT systems to save energy and cut costs.

Lithium-ion battery cells.

BIG UTILITY SEES PATHWAY TO \$10 OIL. ENGIE SA'S THIERRY LEPERCQ, HEAD OF RESEARCH, TECHNOLOGY AND INNOVATION AT THE FRENCH COMPANY, THE WORLD'S LARGEST NON-STATE POWER PRODUCER, SAID CHEAP HYDROGEN WILL WEIGH ON CRUDE TO DRAG PRICES AS LOW AS \$10 A BARREL AND CONNECTED DEVICES ARE IN A “J” CURVE, “HYDROGEN IS THE MISSING LINK IN A 100 PERCENT RENEWABLE ENERGY SYSTEM, BUT TECHNOLOGICAL BRICKS ALREADY EXIST”.

TO ALL PROPERLY REGISTERED VOTERS WHO MAY
PARTICIPATE IN THE NEXT PRESIDENTIAL ELECTION
NOVEMBER 3, 2020

HONOR, TRUTHFULNESS and PERSONAL INTEGRITY

LADIES and GENTLEMEN...Our President Donald J. Trump occupies the most respected office and residence in the entire world that has the most powerful bully puppet when used efficiently, if not it could be a destructive mechanism turning the United States of America into a very, very large jungle of unimaginable consequences that are starting to develop into very visible caste societies...those that have and those who will be prohibited from ever having !! Pages 2, 3, 4, 5 and 6 that follow clearly prove that the reality of a caste set of societies can be prevented from happening when the employers feel comfortable about voting for what they believe will be best for themselves and their families. Pages 2, 3, 4, 5 and 6 clearly define that the U.S. voting public can easily eliminate completely the Presidential authority that is being misused by increasing the debt to the American public and simultaneously increasing the immeasurable wealth to the nation of Saudi Arabia that is scared to death that Cheap Hydrogen as identified below will permanently destroy the world market price for oil...this would make the United States of America the wealthiest and most powerful nation on the face of the earth.

ALL REPLIES WILL BE INDIVIDUALLY ANSWERED

A NEW ELECTRICAL GRID SYSTEM FOR THE UNITED STATES OF AMERICA

May 29, 2019

GLOBAL RECOGNITION TO DATE HAS IDENTIFIED THE VARIOUS DANGERS OF FOSSIL FUEL CANCER THAT EXISTS...Ted Koppel a well-recognized and celebrated journalist in print and television has written a book titled "Lights Out" published by Penguin Random House LLC, this is a must read, once read you should consider the information necessary for all who reside in the United States of America to be concerned about preserving the most valuable asset we have, electricity.

CATERPILLAR INC...has developed a power generation system, 10MW, a 20 cylinder, 20,000 HP reciprocating internal combustion engine genset. Please see video at www.caterpillar.com then select Caterpillar Electric Power Natural Gas Engine for pictures and video. Interested parties can refer to existing systems at the Mid-Kansas Electric Company's, Robart Station near Ulysses, Kansas. Each genset in operation is about 11 feet in height x 9.5 feet in width x 42 feet in length; each cylinder has a bore of 13.5 inches and a stroke of 16.5 inches. Each generate heat (HHV is 8,003 BTU/kWhr. and LHV is 7,275 BTU/kWhr.

VIDEO SHOWING PRODUCTION OF CHEAP HYDROGEN...View the Oil Free LLC website www.oilfreellc.com and then select the Menu Key titled VIDEO from the second group of Menu Keys on our Home page and see the Wallace HOD System producing cheap hydrogen.

DESIGNS AND DEVELOPMENTS PROGRAM WILL DETERMINE A VERY UNIQUE PROCEDURE TO BE IDENTIFIED BELOW

- YEAR ONE AND YEAR TWO BUILD STATE OF THE ART LABORATORY
Enabling our engineer's to construct prototypes that would make cost analysis a reality...this will advance concept to production.
- YEAR THREE CONCEPT MODELING
- YEAR FOUR THROUGH YEAR TWENTY
Manufacturer and oversee 100,000 third party installation of Caterpillar Model GCM34 110 MW Genset Packages per year for seventeen years.

IMPROVING THE PERFORMANCE OF THE ELECTRICAL GRID SYSTEMS OF THE UNITED STATES OF AMERICA, A TWENTY YEAR PROJECT DETAILS FOLLOW

May 29, 2019

MATH EQUATION FOR EQUIPMENT...The number of 110MW gensets to be installed for the entire twenty year program in order to produce USA's total electricity of 3,911,000,000 MW is calculated by dividing that total by the 2,640 MW produced by each 110MW genset package per day which is 1,645,000 (rounded to 1,700,000) genset packages.

FINANCIAL COST ANALYSIS FOR EQUIPMENT...The net cost of 100,000 Caterpillar Model GCM34 110MW gensets which consists of twelve (12) 10 MW units delivered and installed on site is about one hundred million dollars. Installation is scheduled for seventeen years (year four through year 20) Total cost is \$10 Trillion dollars per year. (100,000 Gensets x \$100,000,000 = \$10,000,000,000,000)

ONE TIME ROYALTY PAYMENTS FOR OIL FREE LLC...year four, day one of construction period number one with sixteen construction periods to follow for the next sixteen years.

ANNUAL ROYALTY...annual royalty of \$200 Billion dollars will be paid for each of the following sixteen years on day one of each year. Total income to Oil Free LLC is \$3.4 Trillion dollars. (17 years x \$200,000,000,000 = \$3,400,000,000,000)

ELIMINATING FOSSIL FUEL FOREVER IN THE PROCESSING OF ELECTRICITY...

- Currently the U.S.A. is paying \$148 Trillion dollars annually for the purchases of fossil fuels exclusively for the processing of electricity.
- Starting in construction year four the United States will reduce fossil fuel purchases by the 1/17th of the yearly amount...fossil fuel consumption to be confirmed.
- Year four the amount will be reduced by 1/17th or by 5.88%. The basis for each subsequent year will be 94.12% of the previous year.
- Following construction year twenty no fossil fuel will be needed.

FOSSIL FUEL BEING REDUCED FOR A
SEVENTEEN YEAR PAYMENT PERIOD

May 29, 2019

	<u>FOSSIL FUEL COSTS</u>	<u>SAVINGS</u>
Year 4	\$148 Trillion	\$139.3 Trillion
5	\$139.3 Trillion	\$131.1 Trillion
6	\$131.1 Trillion	\$123.4 Trillion
7	\$123.4 Trillion	\$117.4 Trillion
8	\$117.4 Trillion	\$110.5 Trillion
9	\$110.5 Trillion	\$104.0 Trillion
10	\$104.0 Trillion	\$97.9 Trillion
11	\$97.9 Trillion	\$92.1 Trillion
12	\$92.1 Trillion	\$86.7 Trillion
13	\$86.7 Trillion	\$81.6 Trillion
14	\$81.6 Trillion	\$76.8 Trillion
15	\$76.8 Trillion	\$72.3 Trillion
16	\$72.3 Trillion	\$68.0 Trillion
17	\$64.0 Trillion	\$60.2 Trillion
18	\$60.2 Trillion	\$56.7 Trillion
19	\$56.7 Trillion	\$53.4 Trillion
20	\$53.4 Trillion	\$50.3 Trillion

Total \$1,521.7 Trillion

Minus \$10.0 Trillion cost per year x 17 years = \$170.0 Trillion

Net Savings \$1,351.7 Trillion

CONCLUSION FOR THE WORLD TO REVIEW AND MAKE COMMENTS,
PRESIDENT DONALD J. TRUMP CAVED TWICE WHEN MICHAEL
BLOOMBERG CALLED HIM A CON MAN ON TWO SEPARATE
OCCASIONS AIRED BY CBS. MR. BLOOMBERG IS GENUINELY A
BILLIONAIRE AND VERY ACTIVE PHILANTHROPIST, IF PRESIDENT
TRUMP DOES NOT RESPOND TO THE WORLD ABOUT WHAT I HAVE
SAID THE LIKELIHOOD IS THAT HE WILL NOT BE VICTORIOUS IN THE
2020 ELECTION.
